*Meteorological charts

Based on the material of the Soviet high-latitude ob-
servatories and drifting stations synoptical charts of
magnetic disturbances (r.v.) for 1957-1958 were made.
There are given mean two-hour charts for 1957 and
some examples of successive hourly charts of distur-
bances. There is found to be a considerable variation of
disturbance distribution in the universal time. This
distribution is characterized by the existence of sepa-
